GENERAL INFORMATION

EAGE

The European Association of Geoscientists and Engineers (EAGE) is a global professional, non-profit association for geoscientists and engineers with 19.000 members worldwide. The objective is to collect and distribute technical knowledge. EAGE organizes events and publishes a monthly magazine for its members and 5 scientific journals. All members of EAGE are professionally involved in (or studying) geophysics, petroleum exploration, geology, reservoir engineering, mining and mineral exploration, civil engineering, tunneling and environmental matters. EAGE's head office is located in the Netherlands with regional offices in Dubai, Kuala Lumpur and Bogota.

ABOUT EAGE DIGITAL 2025

The future demand for oil and gas is highly uncertain, with forecasts differing drastically depending on whether global society transitions to a net-zero trajectory or remains on the current path. This uncertainty creates a short-term investment horizon, making it increasingly important to invest with a high likelihood of achieving expected returns.

Given the vast amounts of data we can now access, along with the volume of historical data and learnings available, digital technologies are essential in helping us make sense of it all. These technologies not only provide access to all this information but also help us filter it down to the most relevant data, ensuring we don't overlook any errors or biases.

To guide the discussions, the EAGE Digital 2025 forum will focus on three key sub-themes:

- **Data:** With an ever-growing amount of data per person, how can we enable geoscientists and engineers to automatically prioritise the most relevant data and distinguish the signal from the noise?
- **Visualization and Tools:** How can our digital tools combine this data to support timely decisions that are reliable when viewed from a portfolio perspective?
- **Learning from the Past:** How can we leverage knowledge capture and sharing to prevent the repetition of past mistakes, especially in the context of the workforce changes discussed at EAGE Digital 2024?

As we explore these themes together, I encourage you to actively engage in the discussions and share your insights. The future of our industry depends on our ability to harness digital technologies to their full potential—let's make sure we're prepared to invest wisely and predict accurately.

Welcome to EAGE Digital 2025!

EXHIBITION

EAGE Digital 2025 will showcase an exciting exhibition featuring key players driving the digital transformation in the geoscience and energy sectors. Serving as the conference's networking hub, the exhibition will spotlight the latest technologies and industry insights, offering attendees a unique opportunity to engage with cutting-edge developments and connect with leading experts.

MAIN REASONS FOR EXHIBITING

- Meet existing customers and expand your reach;
- Introduce and showcase new products and services;
- Demonstrate your latest technology and equipment;
- Monitor the competition;
- Expand your network;
- Position yourself in the digital sector of the energy industry with an audience of high-level professionals and researchers.

“This EAGE Digital edition has been very interesting on the strategy side to see what the different companies were thinking, both from the operator side but also from the independent software vendors or even from the cloud providers. This has been a great opportunity to see where all the ecosystem is going and the evolutions through the different years of this conference.”

Camille Msika
Principal Solution Consultant, AspenTech

EXHIBITOR BENEFITS

When reserving stand space for EAGE Digital 2025, each exhibitor will enjoy the following benefits:

- Visibility on the EAGE Digital 2025 website and app;
- A promo kit with user-friendly communication tools for your promotion;
- A comprehensive sponsor program to enhance your exposure;
- Complimentary entry to the Icebreaker Reception, including drinks and finger food;
- Free coffee, lunch, and tea throughout the day.

1. SPACE ONLY

The Space Only option offers you the chance to create and build your own, unique stand.

Before 15 January 2025	€ 385
On/After 15 January 2025	€ 440

Please be aware when booking this option: walls, electricity, furniture and other services are not included. “Space Only” stands are available starting from 18 m². Fees are charged per square meter, excluding VAT, and are listed in euros (€).

2. BOOTH PACKAGE

If you do not wish to build your own stand, the Booth Package is an excellent choice, as EAGE will then take care of the basic needs.

On/After 15 January 2025	€ 495

Please note that furniture is not included in the Booth Package or Space Only Stands. Booth Package Stands are available from 9 m².

EXHIBITOR PASS SYSTEM EXPLANATION

Starting in 2024, EAGE has moved from the Exhibitor Voucher and Guest Pass system of previous years to a new system that distributes three fixed types of Exhibitor registration types based on the sqm of your purchased booth package/space only space.

These fixed registration types are not meant to operate as vouchers and as such can not be exchanged or combined to upgrade to another registration type.

The three registration types are:

1. FULL CONFERENCE & EXHIBITION:

- Full Week access to all Technical Programme, Strategic Programme, and Social Programme activities, as well as Exhibition.

2. EXHIBITOR PLUS:

- Full Week of Exhibition Access
- Icebreaker Reception
- Conference Evening
- Access to Strategic Programme

3. EXHIBITION WEEK:

- Full Week of Exhibition Access
- Icebreaker Reception
